The Empire State Building is a famous skyscraper in New York City. It was completed in 1931. At that time, it was the tallest building in the world. Since then, people have constructed several taller buildings.

The Empire State Building is 102 stories high. It has 73 elevators. The fastest ones travel more than 450 meters a minute. They can carry passengers to the 80th floor in 45 seconds.

The building is filled with offices. Many people work there, but nobody lives there. But, many people visit the building. They like to go to the observation areas on the 86th and 102nd floors. They can enjoy good views of the city from there.

1. What's the main topic of this passage?
(A) The fastest elevators in the world.
(B) A skyscraper in New York
(C) Visitors to New York
(D) Working in the Empire State Building
2. How many elevators does the Empire State Building have?
(A) 73
(B) 80
(C) 102
(D) 450
3. What is true about the Empire State Building?
(A) It is still the tallest building in the world.
(B) It has 102 stories.
(C) Many people live there.
(D) Few people visit it.
